SEQUENCES**Transmittal Letter for Replacement Compact Discs**Commissioner for Patents  
Washington, D.C. 20231

Sir:

Enclosed are two duplicate compact discs (Copy 1 and Copy 2) that are identical. The compact discs contain a revised computer program listing appendix for the instant application. The computer program listing appendix has been revised to delete any non-ASCII files, as required by the enclosed Notice issued on March 14, 2002. Please delete the computer program listing appendix submitted with the originally filed application and enter the enclosed two duplicate compact discs in the application. The replacement compact discs contain no new matter.

The machine format of the compact discs is IBM-PC. The operating system compatibility of the compact discs is MS Windows. The files on each compact disc, their dates of creation and their size in bytes are:
